

SAVIGOTM

Nature's Remedy

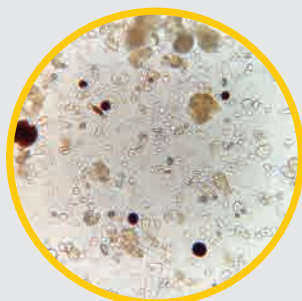

COMPLETE SOIL BOOSTER

INCREASING EFFICIENCY OF NUTRIENT USE FOR PROBLEMATIC SOIL

Advanced Catalyst Nano Bio-Technology

PROMOTES ROOT GROWTH

INCREASE SOIL MICROBIAL ACTIVITY

IMPROVES SOIL FERTILITY

SAVIGO™

Nature's Remedy

is a complete soil recovery product with rapid action, specially formulated with Advanced Catalyst Nano-Bio-Technology that is enriched with high quality activated organic matter, beneficial microorganism, bio-stimulant, alkaline characteristic and macro & micronutrients that are essential for early stage of plant's growth.

EFFECTS ON SAVIGO APPLICATION ON PROBLEMATIC SOILS

Soil pH	4.0 → 5.5	<ul style="list-style-type: none"> Re-fertilize acidic or problematic soil Increase hair roots Maximizing the intake of nutrients Increase the beneficial microbial population Stability of soil pH to 5.5 Reduces the risk of rice fall Prevents loss of nutrients due to solubility and evaporation Increase the resilience of rice plants to pests and diseases
Soil CEC	10 → 20 cmol/kg	
Soil Organic Carbon	1.25% → 2.25%	
Beneficial Soil Microbial Activities	↑↑↑	

Recommended Application Rate

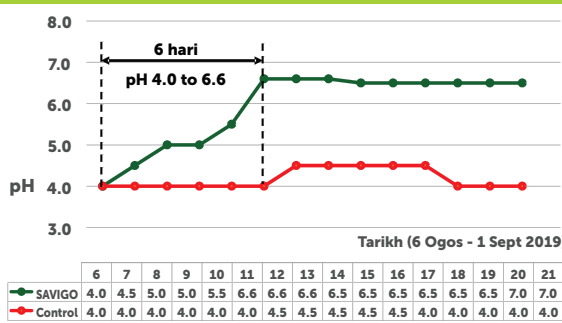

Crops	Rate	Application Methods
Grains(Rice, Wheat, Soy)	125 - 150 kg/ha/season (before planting / sowing)	Spread on the ground 3 days before plant / sow seeds
Potato and Radish	0.2 - 0.5 kg/m2 (before planting / sowing)	Sprinkled over the border. Apply product of linear row in a wide band
Fruit trees (Durian, Pineapple, Manggo)	2 - 5 kg/tree	Apply to the soil around each plant and the base of the tree trunk

3X PROFIT

30% YIELD INCREASED

Result of pH reading in demo plot (pH / day)

Suitable for all type of crops

CORN

PINEAPPLE

MANGGO

CHILLI

TUBER
